## Subject Index

**AB-132** in bronchogenic carcinoma, toxicity of, 165  
 Accession register, 196  
 Acute leukemia, *See* Leukemia, acute  
 ACTH, enhancing tumor growth in advanced cancer, 42  
 Actinomycin D, 67, 68, 72  
 nephroblastoma and, 180-182, 184  
 trophoblastic disease and, 18  
 Wilms' tumor and, 67  
 Adenomas, bronchial, 119-120  
 Africa, lymphoma in, 137  
 Aged, cancer in, 5  
 Alcohol, liver damage by, hepatoma and, 21  
 Alcohol blocks for pain in advanced cancer, 25  
 Alkylating agents, 67, 68, 69, 71, *See also* specific agents  
 treatment of Hodgkin's disease (generalized) with, 151  
 American Cancer Society, cancer registries and, 146-149  
 Hammond smoking study by, 166  
 organization of, [No. 5, back cover]  
 review of research program of, 202-203  
 American College of Surgeons, cancer registries and, 146-149  
 American Speech and Hearing Association, members accepting laryngectomy referrals, 168-176  
 Anemia, ability of acute leukemia to mimic, 208  
 in onset of acute leukemia, 205  
 Anorexia, in onset of acute leukemia, 205  
 Antiserum, leukemia patients' leukocyte reaction to, 221  
 Atomic radiation, *See* Radiation  
 Autoradiographs, chemotherapy testing and, 110-111

**Basal cell cancer** of scalp, 13  
 Bile duct, cancer of, spontaneous regression of, 164  
 Biopsy, *See* specific site  
 Bladder, cancer of, recurrence of, chemotherapy for, 231  
 Bone, cancer of, epidemiology of, radiation in, 14  
 Bone marrow in leukemia, 205, *See also* Leukemia, acute  
 Brachial plexus, advanced cancer of, pain in, 28  
 Breast, benign lesions of, diagnosis of, thermography in, 199  
 cancer of, adrenal and estrogen levels in, 105

cystic disease and, 219  
 detection of, early, 1957  
 mammography in, 217-218, 231-232  
 examination of, mammography and mastography in, 6, 7  
 teenage examinations for, 244-245  
 thermography in, 199-200, 231-232  
 determination of tumor response in, 84  
 display on, [No. 2, back cover]  
 early prognosis in, 33  
 elimination of menopause to prevent, 39  
 epidemiology of, 227-229  
 metastasis of, stomach, 165  
 multiple primaries and, 19  
 occult, thermography in screening for, 201  
 physician-negligence in, 78  
 pregnancy and, 107  
 prevention of, 244-245  
 prognosis of, determining, 32-34  
 nuclear differentiation and sinus histiocytosis in, 41-42  
 recurrence of, 91, 92  
 screening for, mammography in, 217  
 statistics on, 229  
 treatment of, castration as, survival rates after, 104-106  
 castration, prophylactic vs. therapeutic in, 104-108  
 emotional reactions following, 106-107  
 evaluation of, 107  
 mastectomy as, advice after, 37-38  
 arm swelling after, 37-38  
 irradiation after, 120  
 palliative, castration, as, 219  
 survival after, 155, 157  
 untreated, 3-4  
 tumors of, detection of, thermography in, 199  
 Bronchogenic carcinoma, *See* Lung, cancer of  
 Bronchus, cancer of, "adenomas" and, 119-120  
 multiple primaries and, 19  
 "Burkitt lymphoma" ("Burkitt tumor"), 137  
 Busulfan in leukemia, 17

**Cancer**, *See also* specific site  
 advanced, pain in, neurological procedures for, 22-31  
 palliation of, chemotherapy in, 42

tumor growth in, chemotherapy enhancement of, 42  
 the aged and, 5  
 cultural patterns and, 60  
 diagnosis of, early, 155-157, 177  
 lymphangiography in, 164  
 host resistance to, indirect evidence for, 270  
 multiple primary, 19, 20  
 occult, detection of, thermography and, 198, 201  
 personal tragedy of, 39  
 polycentric, 19  
 radiation-induced, 12  
 recurrence of, causes of, 91-92, 126  
 terminology of, 87  
 treatment of, causes of failure in, 92  
 emotional barriers in, 59-60  
**CANCER AROUND THE WORLD**, cytology, exfoliative, cervical, British experience with, 112  
 Cancer cells, dissemination of, 158-160  
 Cancer detection, *See* specific technique  
 Cancer education, lay, pharmacist's role in, 77-78  
 Cancer hospitals, Ellis Fischel State Cancer Hospital, 188-191  
 Francis Delafield Hospital, 62-65  
 Roswell Park Memorial Institute, 140-145  
 University of Texas M. D. Anderson Hospital and Tumor Institute, 236-243  
 Cancer patient, paramedical needs of, 59-61  
 public agencies and, 61  
 voluntary agencies and, 61  
 Cancer registry, form of, 193, 194-195  
 American Cancer Society and, 146-149  
 American College of Surgeons and, 146-149  
 components of, 148  
 elements of, 192-196  
 financial aspects of, 233-235  
 minimum standards for, 147  
 operation of, 192-197  
 purpose and value of, 146-149  
 sources of information for, 192  
 types of, 146  
**CANCER (the journal)**, 41-42, 83-84, 119-120, 164-165, 219-220, 269-270  
 Carcinogen, *See also* specific agent  
 cigarette smoke as, 7-9  
 Carcinogenesis, childhood cancer and, 5-6  
 Carcinoma in situ, *See* Cervix, cancer of

## Subject Index

- Carcinoma, Walker 256, pulmonary metastases and, fibrinolysis-inhibitor enhancing, 271
- Carzodolan, 40
- Castration for breast cancer, 219, 224
- Cell culture, investigation of leukemic virus and, 136
- Cervical cancer, *See* Cervix, cancer of
- Cervix, cancer of, advanced, preoperative pyelogram and, 41 biopsy in, 53-54 classification of, 55 confirmation of, 56-58 conization of, 47-48, 52, 54 avoidance of electrocautery in, 47 detection of, cervical scrape vs. vaginal aspiration in, 44 early, 115, 157 dysplasia in, 48, 53 incidence in Scotland of, 112 in situ, conization in, 51 dysplasia and, 120 invasive transformation in, 51 management of, 48 treatment of, hysterectomy as, 51 recurrence after, 51-52 invasive, 52-56 pregnancy and, 17 microinvasion and, 56-57 pregnancy and, 17, 54-56, 270 surgery for, wound seeding in, 91, 92 treatment of, exenteration in, 54 positive smear and, 46-58 pregnancy and, 270 radiation in, 53, 55, 56 radical hysterectomy as, 54 dysplasia of, 120 smear of, 46-58
- Chemotherapy, agents of, 67-72 chemical names and graphic formulae of, by class, 70-72 classification of, by responding diseases, 69 description of, by class, compound and dosage, 68 new compounds as, 67 radiation and, 67 selection of, 69, 84 acute and chronic leukemias and, 204, 207 advances in, 275 choriocarcinoma and, 275 combination, acute leukemia and, 263-264 determination of response to, 109-111 DNA and response to, 110 heparin in prevention of metastases and, 120 individuals advancing progress in, 275 infusion (arterial), 230 leukemic, complications arising from, 261 remissions with, 67 neuroblastoma and, 184, 186 perfusion, melanoma and, 230-231 regional, 67, 69 retinoblastoma and, 9-10, 12, 219-220 therapeutic effects of, 109-111 tumor growth enhancement by, 42 wound seeding and, 102-103, 124 Children, acute leukemia in, incidence of, 204 cancer in, 5-6 congenital defects and, 5-6, 131, 133 thyroid, radiation and, 15 reticulum cell sarcoma in, 42 retinoblastoma in, 9-12 Choriadenoma destruens, chemotherapy in, 18-19 Choriocarcinoma, chemotherapy in, 18-19, 275 clinical findings in, 18 Methotrexate in treatment of, 67, 69 Chromosomes, abnormalities of, leukemia and, 131, 133 Chronic leukemia, *See* Leukemia Cigarettes, filter, shift to, 166 possible warning statement on packages of, 225 Cigarette smoking, *See* Smoking Cirrhosis, liver cancer and, 20-21 Clorproctin XCB, wound seeding and, 102-103 "Clusters," leukemic, 132, 137 Colitis, ulcerative, prophylactic colectomy for, 120 re-appraisal of comments on, 224 Colon, cancer of, 155-156, 157 mortality in, 120 obstruction as prognostic indicator in, 84 survival after treatment for, 155-156 ulcerative colitis and, 120, 224 Colon and rectum, cancer of, detection of, proctosigmoidoscopy in, 39, 45, 66, 78, 108, 216 multiple primaries and, 19 polyps of, 39 Committees, autonomy of, 122 Connective tissues, cancer of, epidemiology of, 14 Cordotomy for pain of advanced cancer, 23-24 Corrections, 86, 176, 218 Corticosteroid analogues, adrenal, acute leukemia and, 262 Cortisone, acute leukemia and, 262 Cyclophosphamide, acute leukemia and, 262 dose, toxicity, remission rates of, acute lymphocytic leukemia and, 253 leukemic remissions with, 67, 84 neuroblastoma and, 184, 186 retinoblastoma and, 219-220 Cytology, cervical, 46-54 British studies of, 112 scrape vs. vaginal aspiration in, 44 preinvasive changes and, 46 procedures after cancer discovered by, 46-58 reduced incidence of cervical cancer and, 46 exfoliative, 46-58 oral cancer and, 269 sputum, lung cancer and, 8, 41 wound seeding by, detection of, 100 Cytoxan, *See* Cyclophosphamide
- Dexamethasone** enhancing tumor growth in advanced cancer, 42
- Deoxyribonucleic acid, *See* DNA di Guglielmo's syndrome, 208, 210 Dissemination of cancer cells, 158-160
- DNA, chemotherapy response and, 110-111 coding of, genetic information in, 197
- Drugs, *See* Chemotherapy or specific agent
- Dysplasia, cervical, as precursor of carcinoma in situ, 48, 53 pathologic diagnosis of, 52
- Education**, 154 lay, role of pharmacists in, 77-78 teenage breast cancer examinations and, 244-245 professional, "information explosion" and, 235 liberal arts in, 215 Electron microscopy, 136, 137 Ellis Fischel State Cancer Hospital, 188-191 Endometrium, cancer of, pancreatic islet function and, 83-84 progesterins in, 67, 69 Epidemiology, cancer, atomic lesions in, 14-15 industrial and accidental, exposures in, 13-14 leukemia and, 132-133 nonsmoking groups and lung, 119 radiation in, 12, 14-15 thyroid, radiation in, 15 Erythroleukemia syndrome, 208, *See also* di Guglielmo's Etiology, viral nature of leukemic, 132-133, 135-138 Examination, physical, *See* Physical examination
- Eye, cancer of (retinoblastoma), 9-10
- Fallopian tubes**, cancer of, multiple primaries and, 19
- FEEDBACK, 44, 87-88, 224, 273-274 Fifth National Cancer Conference, 34, 178 program of, 79-82 report on, 226-232 Flank tumors, *See* Nephroblastoma 5-FU, 67-69, 71, 184, 186 Formaldehyde, wound seeding and, 100, 124 Franklin, Benjamin, role of, founding of Pennsylvania Hospital and, 187 Francis Delafield Hospital, 62-65
- Gastric cancer**, *See* Stomach, cancer of
- Gastroenteritis, stimulation of, by neuroblastoma, 178
- General practitioners, cancer check-ups and, 177
- Genetics, breast cancer and, 226-227 childhood cancer and, 5
- Genital cancer, *See also* Cervix, cancer of, Uterus, cancer of, Prostate, cancer of, Testes, cancer of, elimination of menopause to prevent, 39
- Gynecologic cancer, lymphography for, 220

**Head and neck**, cancer of, advanced, pain in, 28-29  
recurrence of, 91, 92

**Hibernomas**, use of microangiography in study of, 165

**Hodgkin's disease**, 150-154  
"benign" (paragranulomatous) form of, 153  
diagnosis of, thermography in, 200  
localized, curability of, 150-154  
generalized versus, 151  
reticulosarcoma and lymphosarcoma, 152-154  
survival in, 151, 152, 153  
systemic symptoms of, 151  
treatment of, radiation vs. surgery in, 273  
survival after, 273  
vinblastine in, 67, 69

**Hormone levels**,  
breast cancer prognosis by, 33-34

**Hospital cancer registry**. *See* Cancer registry

**Hoxsey method**, 161-163

**HN2**, wound seeding and, 103, 124

**Hydatidiform mole**, chemotherapy in, 18-19

**Hyperplasia**, reactive, malignant lymphoma and, 269

**Hypophysectomy** for advanced cancer pain, 29-30

**Infusion**, arterial, chemotherapy and, 230

**Iodine-131**, use of, metabolic studies and, 166

**Infancy**, cancer in, 5-6

**Infra-red camera**, thermographic use of, 199

**Infra-red radiation**, emission of, tumors and, 199

**Intravenous pyelography**. *See* Pyelography, intravenous

**Irradiation**. *See* Radiation

**Isotope**, radioactive, metabolic studies and, 166

**Japan**, cancer in, radiation exposure and, 16

**Japanese**, chronic lymphocytic leukemia in, 130

**Koch antitoxins**, 223-224

**Krebsien**, statement on, 86

**Laryngectomees**,  
reactions to, 66  
referral of, A.S.H.A. members accepting, 168-176

complications arising from, 261

## Subject Index

expected effectiveness of, 263

remission induction in, 252-254

renal failure and, 254

survival after, 264

uric acid nephropathy and, 254

**childhood**, remission of, causes for variation in estimates of, 261

current results and, 261-265

death in, causes of, 208

diagnosis of, 205, 207-215

diseases confused with, 210

duration of, 207-208

eosinophilic. *See* Leukemia, acute, granulocytic

fever and, 258

granulocytic, 210-211

hemorrhagic complications in, 257-258

host resistance in, granulocyte levels and, 259

incidence of, age, race and sex and, 204-205  
children and, 204

infectious complications of, 258-259

inflammation and, 258

leukemic proliferation in, 205

lymphoblastic, 210

lymphocytic, 204, 255  
chemotherapeutic agents capable of complete remission in, 253

mimicry of other diseases by, 208

monocytic, 204, 210

morbidity and mortality in, 257

myelocytic, 204

myelogenous, 255

myelomonocytic. *See* Leukemia, acute, granulocytic

natural history and diagnostic peculiarities of, 204-209

plasmapheresis in treatment of hemorrhagic complications of, 258

pre-leukemic state and, 208-209

prognosis of, factors in, 207

renal insufficiency and secondary hyperuricemia in, 259

spontaneous remission of, 207-208

stem cell, 210

supportive therapy for, 257-260

types of, 204-205, 210  
virus-like particles and, 221

acute and chronic, importance of distinction between, 204

aleukemic, 204

animal, virus and, 135

childhood, 261

parental problems in, 73-76

parent-child rapport in, 76

reactions to hospitalization in, 73-75

chromosomal abnormalities and, 131

chronic, granulocytic, chemotherapy for, 84

lymphatic, regression of, 42

lymphocytic,  
diagnosis of, leukemic lymphocytes and, prednisolone-sensitivity of, 271

Japanese and, 130

myelocytic, acute leukemia and, 208

classification of, 204

clustering of cases of, 132, 137

epidemiology of, 132-134

high-risk groups for, 133, 134

human, infectious mononucleosis and, 221-222

incidence of, 130

induction of, chemical and radiation, "retrieval" of virus particles in, 135

meningeal, 254-255

mongolism and, 131, 133

pregnancy and, 16-17

production of rabbit anti-serum and, 221

radiation-exposure and, 12, 130-133  
fatal, 131  
Japanese, 16

remissions of, Cytosan in, 67

subleukemic, 204

treatment of, busulfan in, 17  
6-MP in, 17  
virus and, 132-133, 135-138

**Leukolymphosarcoma**, chemical characteristics of, 42

**Leukoplakia**, cervical, 47

**Lincoln bacteriophage lysates**, 266-268

**Lip**, cancer of, 157

**Liver**, cancer of, 20-21

**LOOKING AT CANCER**, 41-42, 83-84, 119-120, 164-165, 219-220, 269-270

**Lung**, cancer of, biopsy in, 9  
cigarette smoking as carcinogen in, 7-8, 225  
detection of, cytology of sputum in, 41  
thermography in, 200

evolutional stages of, 2

incidence of, rising female, 225

multiple primaries and, 19

occult, detection of, 8-9

histopathologic aspects of, 7-8

treatment of, 8-9

personal characteristics of those developing, 35-36

smoking and, 119. *See also* Smoking, cigarette

treatment of, chemotherapy and irradiation in, 165

thoracotomy as, 115

tumor location in, 2

untreated, 2

precancerous lesions in, 8

**Lymphography**, diagnostic use of, 164

gynecologic cancer and, 220

**Lymph node resection**, breast cancer prognosis and, 33

**lymphangiography** in, 164

melanoma prognosis and, 165

**Lymphoma**, detection of, thermography in, 200

diagnosis of, LAP in differential, 83

malignant, 273  
lymph node biopsy in diagnosis of, 269

mycosis fungoides and, 220

**Lymphosarcoma**, 152-154, 273

acute leukemia and, 208

gastric, differential diagnosis of, 83

generalized, regression of, 42
